

CDC MINSTREL

White Milling Oat

Short and Stalky

We can't stop singing its praises. CDC Minstrel is known for its short stature, strong straw and excellent harvestability. Together with high yields, it hits all the high notes for growers seeking improved returns and easy combining. Listen to your local buyer for milling opportunities in your area.

Highlights

- Top-in-class lodging resistance
 - » Short stature, easy harvesting
- High yields; up to 107%* of the check
- Preferential variety of Avena Foods

Insights

"CDC Minstrel stands good and has good bushel weight. It has been a good consistent oat variety for us and our customers over the years."

- Kim Berscheid, Berscheid Bros Seeds,
Lake Lenore SK

"CDC Minstrel has been a superior variety for conventional growers in our area. Yields are better and straw is shorter, it has good acceptance by millers. Lodging and disease has not been a problem. Overall, CDC Minstrel has proven to be a good fit for us and our customers."

- Brad, Wanda and Tenille Jones, C&E Farms Ltd.,
Wadena SK
