

AB Hague - New 2023

Two Row Feed Barley

AB Hague is a top-yielding feed & forage line developed by the Field Crop Development Centre, Olds College. Averaging 106% over CDC Austenson, with an 'MR' for FHB, excellent forage quality, standability equal to the strongest checks and incredible drought tolerance. AB Hague is a home grown solution for Alberta's tough conditions.

- High yielding; 114%* of checks
 - 106% of CDC Austenson
- Superior drought tolerance
- Strong disease package including 'MR' to FHB
- Excellent forage quality
 - High ADG, high forage protein, DM similar to Gadsby
