

AAC Magnet

Canadian Western Red Spring

AAC Magnet is an early maturing, conventional height CWRS wheat with very strong resistance to FHB. Through registration trials, AAC Magnet displayed the lowest DON content compared to all checks. Field observed maturity has been up to five days earlier than commonly grown CWRS varieties.

- Early maturing, field observed up to 5 days
- High protein
- Strong disease package including 'MR' to FHB
- Strong lodging resistance
- Easy to harvest

Parentage: BW388/BW430
