

AAC Profit

Yellow Pea

A high yielding yellow pea and a top variety in the black soil zone for customers who are looking to fill their bins with big volumes of the highest protein peas that processors are looking for. High protein + high yields = AAC Profit.

- High yields in zones three and four; 110%* of the check
- High protein content
- Rated 'G' for seed coat breakage
- Medium sized seed
- Resistant to Powdery Mildew, 'I' for Fusarium Wilt
- Semi-leafless
