

## CDC Reign - New Canadian Prairie Spring Red

CDC Reign, a new semi-dwarf CPSR, has shown high grain yields without sacrificing protein. It shows strong agronomic features including intermediate resistance to FHB, short strong straw ensuring Canadian growers can maximize their wheat yields while not losing out on milling opportunities.

- High yields; 118%\* of the check
  - 5% higher yielding than AAC Penhold
- Short, strong straw
- 'I' to FHB
- Excellent milling properties
  - High protein for CPSR
