

# AAC Hassler

## Canada Western Red Spring

**Very early maturity; 5 days  
earlier than Carberry**  
**Good disease package**  
**Rated MR or better for all rusts**

## The Early Bird of Wheat - Great for Northern Prairies

High yielding, awned, hollow stemmed spring wheat with yields higher than the check varieties Glenn and Carberry. It is characterized by its very early maturity, which is 5 days earlier than Carberry. AAC Hassler has a good disease package and is rated 'MR' or better for all rusts. The kernel cheek shape of AAC Hassler is rounded.

- Rated I for FHB
- A disease-resistant wheat for your fields
- The perfect choice for early harvests

Agriculture and  
Agri-Food Canada

Agriculture et  
Agroalimentaire Canada

Maturity: -3.6 days vs. Carberry

Height: + 5.6 cm vs. Carberry

Lodging Resistance: Good (3.1)

FHB Rating: I

Stem Rust Rating: MR

Leaf Rust Rating: R

Stripe Rust Rating: R

Bunt Rating: MS

## Strengths

Matures 4 days earlier than Carberry and similar to Parata

Good disease resistance:

Resistant reaction to leaf rust and stripe rust

Moderately resistant reaction to stem rust

Quality suitable for CWRS class based on three years data (PT; 2019-2021)

Protein content 0.1% higher than Carberry

## Neutral

Thousand kernel weight similar to Glenn

Intermediate resistant to FHB

Height similar to Glenn
