

AAC Walker VB

Canada Western Red Spring

High yielding
Short strong straw, great
standability
Wheat midge tolerant

No Compromise, Complete Performance

AAC Walker VB is a high-yielding, awned CWRS wheat variety with midge tolerance, delivering strong agronomic performance across Western Canada. In 29 site-years of testing, it outyielded AAC Brandon by 7% and Carberry by 16%. Offering early maturity, height and lodging resistance comparable to Carberry, along with solid kernel and test weights, with consistent performance across multiple locations and years, and demonstrates strong resistance to leaf, stem, and stripe rusts.

- High yielding - 109% of AAC Brandon
- Excellent pre-harvest sprouting tolerance
- Excellent disease package - R to all rusts, MR to FHB and bunt

Agriculture and
Agri-Food Canada

Agriculture et
Agroalimentaire Canada

Maturity: equal to Carberry

Height: - 0.3cm vs. Carberry

Lodging resistance: Very Good (1.7)

FHB resistance: MR

Stem rust resistance: R

Leaf rust resistance: R

Stripe rust resistance: R

Bunt: MR

Strengths

Higher yielding than all of the checks. Yielded 16% more than Carberry, 7% more than AAC Brandon (3 year mean)

Thousand Kernel weight similar to AAC Viewfield

Excellent disease resistance:

Quality suitable for CWRS class based on three years data (CBWC; 2020-2023)

Neutral

Lodging score similar to Carberry

Test Weight similar to AAC Brandon
