

UA Brynn

Canada Prairie Spring Red

Exceptional Yield
Solid Disease Resistance Package
Agronomics and Milling Quality
Positioning

Built to compete with the highest yielding wheat varieties in any class, across Western Canada

UA Brynn is one of the most exciting wheat varieties to enter the CPSR class in years, raising the bar for performance. Its impressive yield advantage over key checks, including AAC Penhold, has quickly made UA Brynn, a variety growers are paying attention to. What makes UA Brynn stand out, is the combination of yield, agronomics, and milling quality positions. A major step forward for CPSR production.

NEW 2028

**UNIVERSITY
OF ALBERTA**

Maturity: +2 days vs. Brandon

Height: -6 cm vs. Brandon

Lodging Resistance: Very Good (2.2)

FHB Rating: I

Stem Rust Rating: I

Leaf Rust Rating: R

Stipe Rust Rating: R

Bunt Rating: R

Strengths

Grain yield higher than all the checks.
Stands 5 cm shorter than AAC Brandon
Strong straw.
Consistent excellent resistance (R rating) to leaf rust, stripe rust, and common bunt. MR rating to stem rust.
Endorsed for quality in the second year.

Neutral

Intermediate level of resistance to FHB.
