

SU Cossani

Hybrid Fall Rye

High yields
Strong in dry conditions
Good in stress conditions

The Profitable, Sustainable Option for Your Farm's Crop Rotation

SU Cossani is the go-to for dry and sandy soils, thriving under stress conditions with consistently high yields. This variety is a top performer, delivering up to 120% of Hazlet's yield and excelling in milling, distilling, ethanol, or feed markets. Its improved ergot rating and aggressive tillering ensure sustainability in your crop rotations. SU Cossani matches Hazlet's winter survival and stands out with rapid establishment, early maturity, and exceptional standability.

- Grain for feed – milling or distilling
- Aggressive tillering
- Short to medium height

Maturity:	-2 Days vs. Hazlet
Height:	-9 cm vs. Hazlet
Lodging resistance:	Very Good (1.8)

Strengths

Yield: 120% of Hazlet
Winter survivability 97.7%
