

SY Crossite

Canada Western Red Spring

Consistently high yields

Harvestability ease

Excellent disease resistance package

Ready to Grow

Overall, SY Crossite yields consistently above the checks and has a very strong disease resistance package. It has very high kernel weight and acceptable protein and test weight with standability similar to Glenn.

- Thousand kernel weight consistently above checks
- Resistance to leaf, stripe and stem rust

syngenta

Maturity:	+1 days vs. Carberry
Height:	+8 cm vs. Carberry
Lodging Resistance:	Good (2.1)
FHB Rating:	MR
Stem Rust Rating:	R
Leaf Rust Rating:	MR
Stripe Rust Rating:	R
Bunt Rating:	MS

Strengths

- Higher Yield, above all check varieties
- Thousand kernel weight consistently above checks
- Resistance to leaf, stripe and stem rust
- Moderate resistance to FHB

Neutral

- Height and Maturity within the check means
- Intermediate resistance to Bunt
- Straw strength and protein similar to Glenn
