

Torbellino

2-Row General Purpose Barley

High yield potential
Short straw
Superior standability

A Variety that can Stand up to High Fertility Programs

Good standability with excellent plump kernels and ease of harvest. Torbellino is the ideal choice for feed barley growers looking for a variety that can stand up to high fertility programs, manure applications, or other management conditions that lead to high lodging pressure.

- Excellent harvestability
- Well suited to high fertility programs
- Plumper and heavier kernels than malt checks

Maturity: +4 days vs. AAC Synergy

Height: -10 cm vs. AAC Synergy

Lodging resistance: Good

FHB resistance: S

Scald: I

Other Smuts: R

Loose Smut: S

Net Blotch – Net & Spot Form Rating: MS

Strengths

- 5% higher yielding than CDC Copeland
- Higher Extract than all malting standards
